# ODYSSEE-MURE

## Training Workshop for the project “ODYSSEE-MURE: Monitoring EU Energy Efficiency First Principle and Policy Implementation”

### Introduction to the ODYSSEE Database and Facilities on Energy Efficiency Indicators

30 November 2020, 10-12h Central European Time (CET)

*Virtual Meeting*

Time	Title	Speaker	Content
10:00 – 10:15	Introduction	D. Bosseboeuf, Ademe	The ODYSSEE-MURE project. Background of ODYSSEE indicators. What are they? Organisation of the session.
10:15 – 10:45	Overview of ODYSSEE indicators	B. Lapillonne, Enerdata	How to measure and select the right indicators by sector and end-use ? Indicators and policies.
10:45 – 11:15	ODYSSEE database on energy efficiency trends and indicators  ODYSSEE database facilities for analysis	M. Rousselot, Enerdata	ODYSSEE database: source of data, data control and processing, qualification of data (sources, etc...), content of database.  Overview of ODYSSEE facilities.  Disseminating ODYSSEE-MURE: publications, country/sectoral profiles, Q&A, seminars, policy briefs etc...  Short online demonstration of the database and ODYSSEE facilities.
	Introduction to case studies on ODYSSEE		ODYSSEE case studies 1 & 2 (for more detailed study after webinar).
11:15 – 11:45	Use and misuse of macro-economic indicators	B. Lapillonne, Enerdata	Focus on the most usual indicators of energy intensities macro economic: what they can show and what are their limits.  Need of more advanced indicators
11:45 – 12:00	General Q/A session
