# ODYSSEE-MURE

## Training Workshop for the project “ODYSSEE-MURE: Monitoring EU Energy Efficiency First Principle and Policy Implementation”

### Advanced Energy Efficiency Indicators in ODYSSEE

**7 December 2020, 14.30-16.30h Central European Time (CET)**

*Virtual Meeting*

Time	Title	Speaker	Content
14:30 – 15:00	How to measure energy efficiency progress and energy savings by sector?	B. Lapillonne, Enerdata	Definition and mode of calculations of the ODYSSEE energy efficiency index (ODEX) and energy savings
15:00 – 15:15	Where to find ODEX and energy savings in ODYSSEE database and facilities?	M. Rousselot, Enerdata	Database queries on ODEX and savings Energy savings tool
	Introduction to case studies on ODYSSEE		ODYSSEE case studies 3 & 4 (for more detailed study after webinar)
15:15 – 15:40	Understanding variations in primary and final energy	B. Lapillonne, Enerdata	Introduction to decomposition Demonstration of decomposition tool
15:40 – 16:00	How to compare countries?	D. Bosseboeuf, Ademe	Why compare countries and how to do it?
16:00 – 16:15	Comparing countries with the ODYSSEE benchmarking tool	M. Rousselot, Enerdata	Presentation of benchmarking tool
16:15 – 16:30	General Q/A session
