

Co-funded by the Horizon 2020 programme
of the European Union

ODYSSEE-MURE

Third meeting of the project “*ODYSSEE-MURE,
Monitoring EU Energy Efficiency First Principle and Policy
Implementation*”

15-16 November 2021, Visio Conference organized with EIHP

EE1 facility

*Matthias Reuter, Mara Chlechowicz, Wolfgang Eichhammer
Fraunhofer ISI*

Introduction

- **Background**
- **Presentation of implementation**
- **Next steps**

Background

- **Development of an indicator approach** to assess the implementation of the EE1 principle in MS's NECP in 5 dimensions
- Rating using a **semi-quantitative scoring system**
- Conducted interviews with energy policy experts in **14 countries**

Comparison of supply and demand

Cost-benefit analysis

Discount rates

MBs

Economic efficiency potentials

Prevention of distorted markets

Access to information

Access to capital

Risk and certainty

Energy poverty

Sufficiency

Region and local level

Monitoring

Austria

Denmark

France

Germany

Ireland

Italy

Latvia

Lithuania

Malta

Netherlands

Poland

Slovenia

Spain

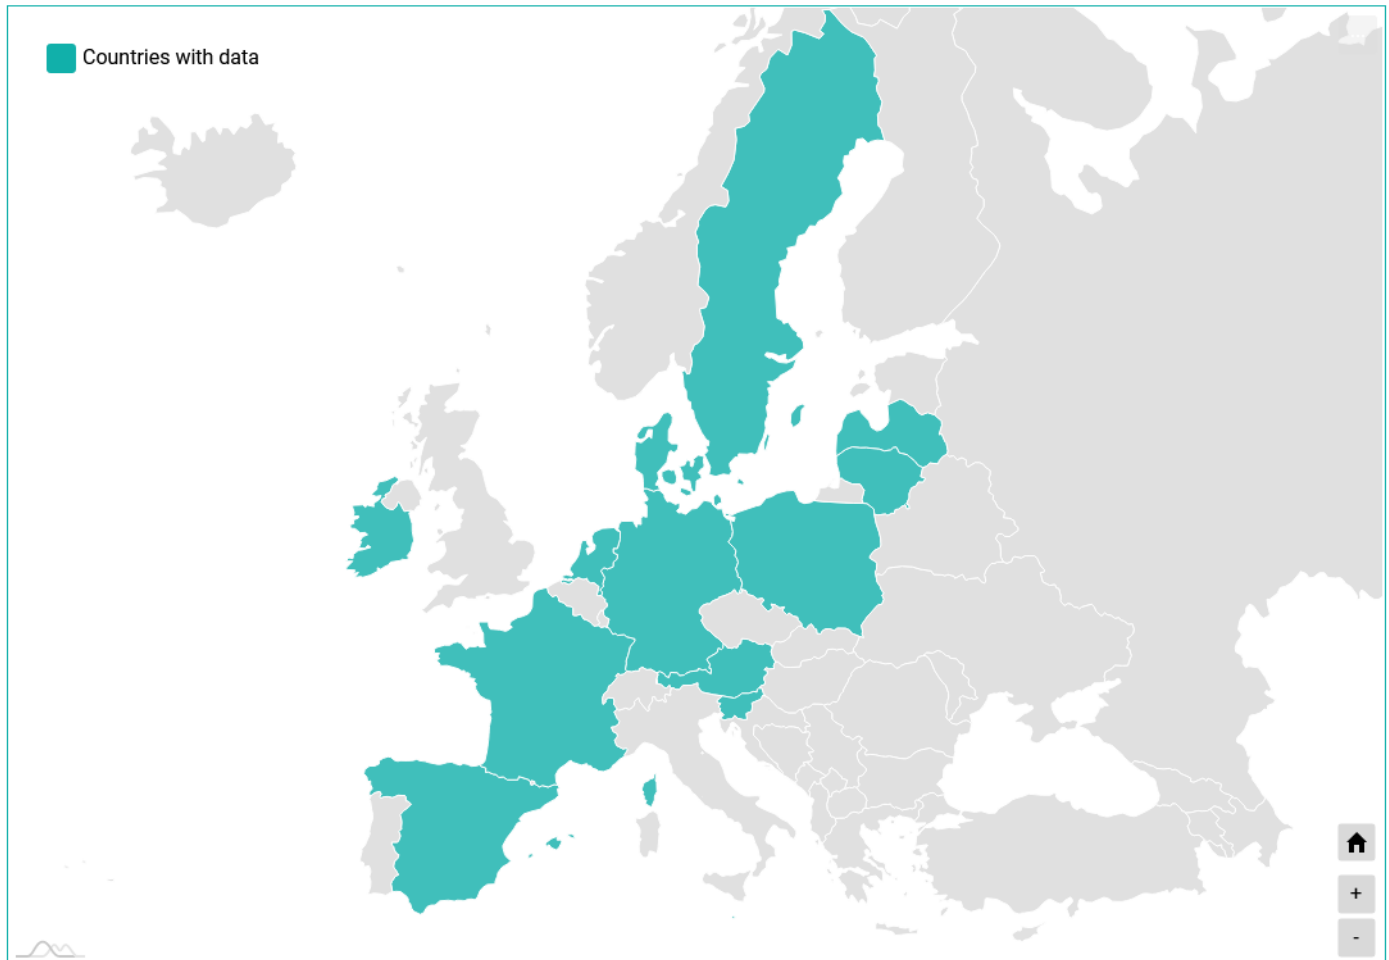

Sweden

Next steps

- EE1 facility is planned to be published by **end of November**
- Missing **case studies** can still be added!
- **Publication** of paper about the approach and analysis in special issue of *Energy Efficiency* **by end of the year**
- Feedback from NTs welcome!

Pre-final version available online:
